

# Australia Post API instruction

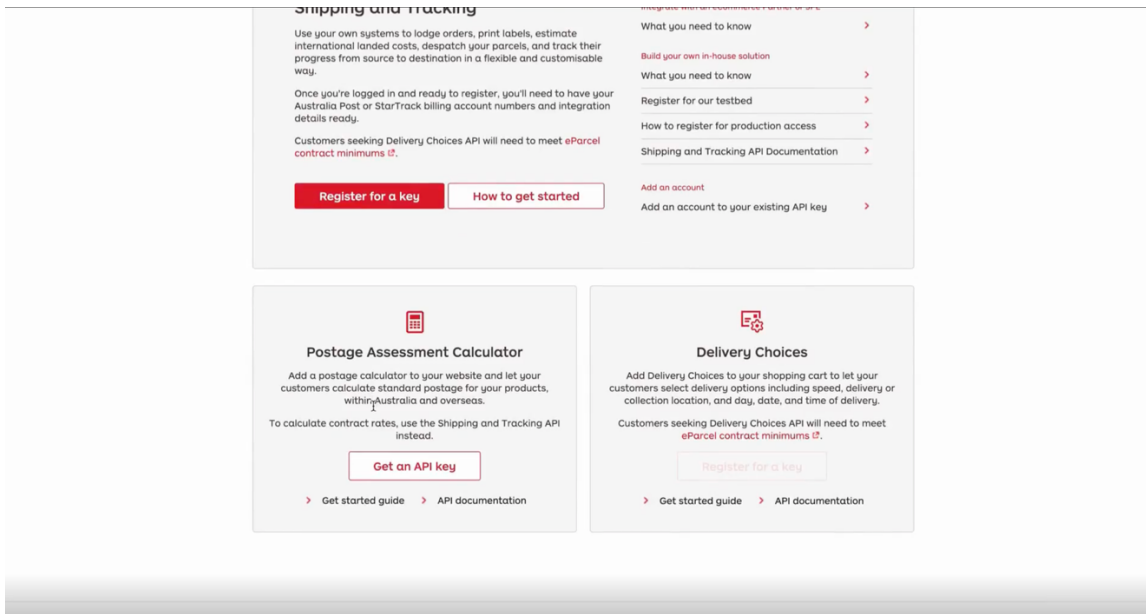

If you're using Australia Post as your delivery partner, start by going to Store Settings, then Scroll down to Shipping Settings and select Australia Post from the Shipping Service drop down.

Next, head to the Australia Post Developer Centre and click on View our APIs.

Find the postage assessment calculator and click Get an API Key.

Fill in your first and last name, e-mail address, business name and website.

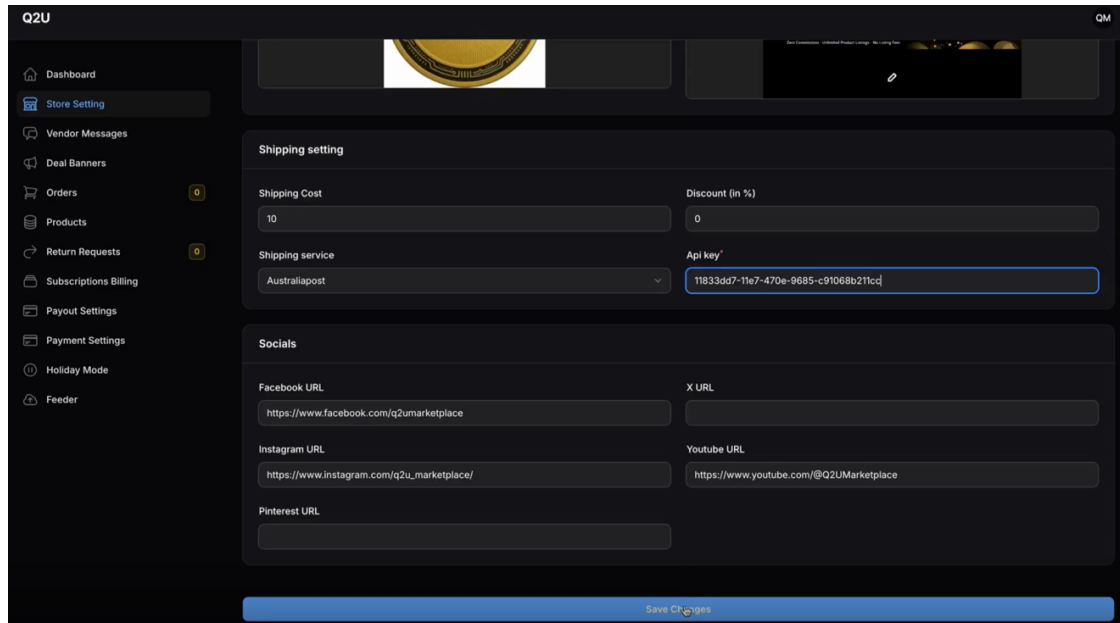

Then agree to the Terms and Privacy Policy and press Submit.

The screenshot shows the 'Your details' registration form. The form has a title 'Your details' and a '\* Required' indicator. It contains the following fields: 'First name \*', 'Last name \*', 'Email address \*', 'Business name', and 'Business website'. Below the fields is a checkbox for 'I agree to the Developer Centre terms and conditions' and 'acknowledge the Australia Post Privacy Policy'. At the bottom right, there are 'Cancel' and 'Submit' buttons.

You'll receive an e-mail with your API key.

Copy the key, go back to Q2U and paste it into the API Key field in your store settings.

Click Save Changes and you're all set.

The screenshot shows the Q2U Store Settings interface. On the left is a navigation menu with options: Dashboard, Store Setting (highlighted), Vendor Messages, Deal Banners, Orders (0), Products, Return Requests (0), Subscriptions Billing, Payout Settings, Payment Settings, Holiday Mode, and Feeder. The main content area is divided into two sections: 'Shipping setting' and 'Socials'. In the 'Shipping setting' section, 'Shipping Cost' is set to 10, 'Discount (in %)' is 0, 'Shipping service' is 'Australiapost', and the 'Api key' field contains 'f1833dd7-f1e7-470e-9685-c91068b211cd'. The 'Socials' section includes fields for Facebook URL (https://www.facebook.com/q2umarketplace), X URL, Instagram URL (https://www.instagram.com/q2u\_marketplace/), Youtube URL (https://www.youtube.com/@Q2UMarketplace), and an empty field for Pinterest URL. A blue 'Save Changes' button is located at the bottom right of the settings area.

Customers will now see real time delivery fees calculated by Australia Post at checkout.
